RE: Marketing of two dietary supplements bearing nutritional support statements

Gentlemen:

The distributor is Nutrition Express, 2575 West 237th St, Torrance, CA 90505.

The product names are "Pink Pack" and "Varsity Pack 2."

The ingredients are, Vitamin A (fish liver oil), Vitamin D (fish liver oil),
Vitamin E (d-alpha tocopheryl succinate).

The text of the statement for the products containing vitamins A, D and E:

"We then transform our natural vitamin E and the other oil or fat-dispersible vitamins like A and D into a non-oily form. Why? We've discovered this predigested form is easier-to-digest. The taste of oil based vitamins won't repeat on you throughout the day and it's a superb choice for those prone to acne or oily skin."

The information contained in these notices is accurate and substantiation for the statements is, to the best of my knowledge, truthful and not misleading.

Sincerely,

Don McFarland, President
Lindberg Nutrition
